

12 May 1964

**MEMORANDUM FOR: Assistant Director for Scientific Intelligence**

**SUBJECT: OSI Staff Study on NIS Section 45**

20

Attached are some comments from Chief, Editorial Division/OBI, on the subject paper which you sent over on 18 April.

We assume that you have consulted with the Defense people on those portions of the Study for which they have responsibility.

Presumably the subject specifications are being regarded, as has been the case with respect to certain other NIS content, as interim in nature and providing for development of experience in use before referral to the NIS Committee for consideration as a change in the formal NIS Standard Instructions.

With the approach of the new fiscal year, we trust that satisfactory arrangements are being made for the re-located production of the Health and Sanitation units on the FY 1965 schedule.
